OK SPARK TESTER

This Spark Plug Sensor is the only tool that measures both spark and voltage instantly without having to remove the spark plug from your cylinder. Saves time and money by instantly diagnosing your plugs and coils. Patented PEER™ (Plasma Energy Event Recognition) Technology and Universal Applications: Instantly checks for the presence of an electrical arc in the spark plug. Works on automobiles, motorcycles, ATVs, and any engine with a spark plug. No pre-programming or preparation. Simply press the ON button to get the result instantly. Green light indicates you have proper spark and red light indicates you have voltage from your coil. Works on most Coil-Over-Plug Ignition systems.
